

Qbiss Screen BIM Tool for ARCHICAD

ReadME EN

Content:

ReadME.pdf, QS-instructionEN.pdf -instructions
Qbiss_Screen.lcf -Library for ARCHICAD 16 and more

files for AC16 to 20

Qbiss_Screen_AC16.tpl -Template for ARCHICAD 16-20
QS_favorites_AC16.prf -Favorites for ARCHICAD 16-20
CW-QScreen frames_AC16.xml -Frame Schedule for ARCHICAD 16-20
CW-QScreen panels_AC16.xml -Panel Schedule for ARCHICAD 16-20

files for AC21

Qbiss_Screen_AC21.tpl -Template for ARCHICAD 21 and more
QS_favorites_AC21.prf -Favorites for ARCHICAD 21 and more
CW-QScreen frames_AC21.xml -Frame Schedule for ARCHICAD 21 and more
CW-QScreen panels_AC21.xml -Panel Schedule for ARCHICAD 21 and more

How to instal:

In File>Libraries and Objects>Library Manager
Add "Qbiss_Screen.lcf" in the loaded libraries
With "Qbiss_Screen.lcf" library we get one Curtain Wall frame (Qbiss Screen-Frame) and one Curtain Wall panel (Qbiss Screen-Element) element. We can reach this two elements in the Curtain Wall tool.

In Window>Palettes>Favorites
Import favorite files (*.prf).

In Document> Schedules>Scheme Settings
Import Schedule Files (*.xml)

The schedule files create the shemes which can be send to Trimo for the enquiry

PreberiME SLO

Vsebina:

ReadME.pdf, QS-instructionSLO.pdf -navodila
Qbiss_Screen.lcf -Library(knjižnica) za ARCHICAD 16 in več

files for AC16 to 20

Qbiss_Screen_AC16.tpl -Template za ARCHICAD 16-20
QS_favorites_AC16.prf -Favorites za ARCHICAD 16-20
CW-QScreen frames_AC16.xml -Frame Schedule za ARCHICAD 16-20
CW-QScreen panels_AC16.xml -Panel Schedule za ARCHICAD 16-20

files for AC21

Qbiss_Screen_AC21.tpl -Template za ARCHICAD 21 in več
QS_favorites_AC21.prf -Favorites za ARCHICAD 21 in več
CW-QScreen frames_AC21.xml -Frame Schedule za ARCHICAD 21 in več
CW-QScreen panels_AC21.xml -Panel Schedule za ARCHICAD 21 in več

Kako namestimo:

V File>Libraries and Objects>Library Manager
Add(dodaj) "Qbiss_Screen.lcf" med nameščene knjižnice
Z "Qbiss_Screen.lcf" knjižnico dobimo en "okvirni" (Qbiss Screen-Frame) element in en "panelni" (Qbiss Screen-Element) element. Ta dva elementa sta uporabna in delujeta le v Curtain Wall tool (orodju).

V Window>Palettes>Favorites
Importiramo "favorites" dokumente (.prf)

V Document> Schedules>Scheme Settings
Importiramo Schedule dokumente (*.xml)

"Schedule files" nam omogočajo kreiranje shem(kosovnic), ki jih lahko pošljemo na Trimo v povpraševanje.
