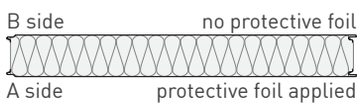
XLINE PANEL PACKAGING & TRANSPORT

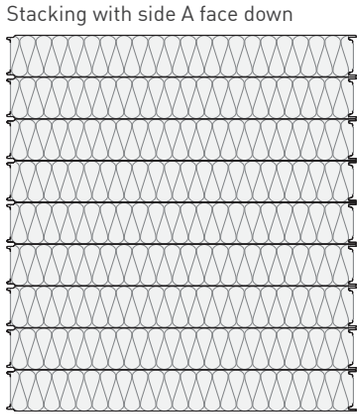
PACKAGING

XLINE sandwich panels are stacked on honeycomb cardboard sheets, cushioned with styrofoam pads, and fully wrapped in foil to create solid, easy-to-handle bundles.

	Number of panels per pack							
Panel thickness [mm]	60	80	100	120	150	175	200	250
Stacked interleaved	18	12	10	9	7	6	5	4



Stacking with side A face down



TRANSPORT

All deliveries are made via standard road transport to the construction site (maximum standard length 13.2 m). The trucks must be unloaded by the customer with suitable unloading equipment.

Longer lengths (up to 15 m) and/or self unloading trucks are available on request.

Use the table below to quickly estimate howany square metres of facade can be delivered with a single truck.

Panel thickness [mm]	Panel length [m]										
	3	4	5	6	7	8	9	10	11	12	13
Xline 60	864	864	720	864	504	576	648	720	792	864	936
Xline 80	648	648	540	648	378	432	486	540	594	648	702
Xline 100	552	552	460	552	322	368	414	460	506	552	598
Xline 120	456	456	380	456	266	304	342	380	418	456	494
Xline 150	360	360	300	360	210	240	270	300	330	360	390
